

The investment contracts for the funds listed after the following explanation are being withheld from disclosure in accordance with Kentucky law.

While KRS 161.250 requires publication of most contracts of the Teachers' Retirement System of the State of Kentucky (TRS), subsection 5 of the statute provides that these documents are subject to the Kentucky Open Records Act (KRS 61.878) and its exemptions from disclosure. KRS 61.878(1)(c)1 exempts "records that are confidentially disclosed" to governmental agencies that are "generally recognized as confidential or proprietary, which if openly disclosed which would permit an unfair commercial advantage to competitors of the entity that disclosed the records." Subsection 5 of KRS 161.250 also states that "the retirement system shall not be required to furnish information that ... would compromise the retirement system's ability to competitively invest in real estate or other asset classes."

The contracts listed below have been marked confidential and proprietary by the funds being invested in, and the managers of those funds have submitted letters to TRS reasserting that position. Also, public release of this information would be detrimental to the fiduciary duty for TRS to seek to maximizing returns on the investments of its members and, in some cases, negotiate fees more favorable than what other pension systems pay, also disadvantaging the members.

The contracts are available for inspection under Subsection 5 of KRS 161.250 to the Auditor of Public Accounts and the Government Contract Review Committee.

Note that TRS does provide a great deal of information about each of these investment funds – including the name, the address of the manager, the class of investment, the fair value of the fund, management fees paid by TRS – on the TRS website on a quarterly basis and annually in the Comprehensive Annual Financial Report.

The funds and related contracts are:
