Automatic Insurance Payment Method

What is Automatic Insurance Payment Method?

Automatic Insurance Payment Method is a free, convenient payment method that enables you to have your monthly medical insurance payment automatically deducted from your personal checking or savings account. The money is then directly deposited for payment of your KTRS medical insurance premium.

Your bank will take care of deducting the payment near the end of each month. This will enable your payment to be received on a timely basis. So leave your worries of a late payment, having to write a check, or finding a stamp behind.
